

Norsk studentorganisasjon

Dear Sir / Madam,

With this letter we, The National Union of Students in Norway (Norsk Studentorganisasjon (NSO)), give the International Student Festival in Trondheim (ISFiT) our support and recognition, regarding both their cultural and professional programme as well as their selection of participants. With this request we hope to encourage that you keep this in mind when receiving visa applications and other inquiries regarding ISFiT. We hope you will assist ISFiT participants with the visa application process so that they may represent your country at ISFiT 2013.

It is our belief that ISFiT is a great forum in which students from all over the world can express their opinions and gain knowledge and new perspectives. ISFiT aims to invite the leaders of tomorrow and make sure that their voices are heard and international networks are established. For ISFiT 2013 to be an internationally recognized meeting place for discussion and debate, it is important that their participants are dedicated students from all parts of the world.

We understand that ISFiT 2013 has selected their participants thoroughly and that out of 5900 applicants, only the most devoted and reflected students were invited. We believe in their knowledge and experience regarding the participant selection process and support their final decision.

Over 400 students volunteer to make ISFiT 2013 a reality, and we do hope they will reach their goal of welcoming approximately 450 students from 100 different countries in Trondheim, Norway in February 2013.

Øyvind Berdal

President, National Union of Students in Norway
